Long Waists, Medium Waists.

Ask Your Dealer for KABO CORSETS.

**A BRIGHTER ASPECT**

Put on the Situation at the Buckeye Glass Works.

**ARBITRATION FALLS THROUGH**

Though the Workmen are Willing to Consider Any Fair Proposition of the Company Consistent With the Rules of the Union—An Adjustment May be Effected on a Co-Operative Basis, Similar to That in Operation at the Crystal Works.

Local Union No. 15 held a meeting in its hall at Martin's Ferry yesterday afternoon which was well attended, and lasted for about three hours.

The report of the committee of five appointed to confer with President A. D. Seamon, of the Buckeye Glass Company, was received and placed on file.

The result of the conference was exclusively reported in yesterday's INTELLIGENCER and the matter was discussed at length at yesterday's meeting.

Mr. Seamon insists that the differences shall be arbitrated by a committee of three business men of Martin's Ferry as previously stated in these columns, and this the glassworkers claim they cannot do.

It was regretted that President Smith, of the American Flint, did not remain in Martin's Ferry until after the conference between the management of the Buckeye and the glassworkers, that they might know what action to take if any.

As stated yesterday, the glassworkers seem willing to make certain concessions, and they can do this without violating any rules of the union, and, therefore, feel that this is fair and ought to be satisfactory to the Buckeye people.

The INTELLIGENCER is not authorized to state that the glassworkers are willing to consider any fair proposition made by the company consistent with the rules of the union, but from what can be learned, it is believed that they would entertain such a proposition, which, if made, would have the proper consideration.

The local glassworkers say that they are anxious to have the differences amicably adjusted and are willing to do what is fair and reasonable.

It has been suggested to Mr. Seamon that possibly an adjustment might be effected on a co-operative basis, and he says that a proposition of this kind from the men would be considered, but that a per cent of the wages fully equal to that devoted to stock interest as at the Crystal glass works, at Bridgeport, would be retained.

The prospects now seem brighter for an adjustment than they did yesterday, and it is fervently hoped that this will be accomplished.

**Points From the Pen.**

Yesterday two convicts were released from the pen. To-day two more will go out. The names of those who were released yesterday were Elmer Bullet and Burrow Gunnoe, both of whom had served two years for forgery, and came from Kanawha county. The two to go out to-day are Albert Simms, who has served two years for manslaughter, from Fayette county, and George W. Fenix, who has served two years for grand larceny, from Berkeley county.

Warden Van Pelt and Senator D. A. Dorsey yesterday took Leonard Henderson, a convict in the penitentiary, to Hinton, where he is a witness in a trial.

A convict by the name of C. E. Stewart died at the penitentiary yesterday morning of Bright's disease. He was brought from Kanawha county in November, 1892, and would have served his time out in May of this year.

**A Powerful, Brilliant and Useful Lecture.**

Dr. W. H. Crawford, president of Allegheny College, will lecture next Friday evening on "Savonarola, the Italian Reformer," at the Young Men's Christian Association. Dr. W. L. Davidson comments on Dr. Crawford's lecture as follows: "The lectures by Dr. W. H. Crawford on 'Wyclif,' 'Huss' and 'Savonarola' are simply the best historical lectures I ever heard. They sound like delightful bits of fiction, but are forever true to the great facts of history. For a concise and picturesque putting of an historical period, for striking pictures of men, for absorbing and wonderful climaxes, for impassioned oratory, they have never been excelled on any platform."

**A NEW TIN PLATE PLANT.**

A Pittsburgh Company Will Build it for a Wheeling Firm at Martin's Ferry.

An order for a complete tin plate plant has been placed with the Totten & Hogg Iron and Steel Foundry Company, of Pittsburgh, by the Laughlin Nail Company, of Wheeling, says yesterday's Pittsburgh Times. The plant will be erected in Martin's Ferry, O., and will be one of the largest and most complete in the country. Ten mills will be put in at once and room will be left for seven more. The mill will be of iron, and the tinning houses and packing house of brick. The plant was designed by F. I. Freeman, the mechanical engineer of the company.

The Totten & Hogg company also has an order for changing the nail plate train, built by them for the Laughlin company many years ago, into a train for rolling the sheet bars for this new plant, and to furnish the new shears and rollers' tables for it.

**NOT STEELE MACKAYE'S.**

Somebody Seems to Have Desecrated his Masterpiece.

Anybody who has any idea of Steele Mackaye's genius as a playwright will resent the claim that he is responsible for the change of his magnificent play from the complete work of art it was to what it is now. There is such inherent strength in the story that it would be hard to make it unworthy of attention, but the production has been made weaker and cheaper. The scenery is good enough, but the last act seems to have been fitted up to fit a second hand set of canvas. The members of the cast for the most part recited like school children, but once or twice the people in the leading roles rose to special occasions. Those who had not seen the original "Paul Kaurar" appreciated what its strength had not been sacrificed.

**In Olden Times**

people overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, well informed people will not buy any other laxatives, which act for a time, but finally injure the system.

Our prices on Muslin and Cambric Underwear are uniformly low—no "bait."

GEO. M. SNOOK & CO.

**A. O. U. W. CHAMBERS, LUKENS & HIGGINS.**
